The Wife's Commandments

I. Thou shalt have no other wife but me.

II. Thou shalt not take into thy house any beautiful brazen image of a servant girl, to bow down to her, to serve her, for I am a jealous wife, visiting, &c.

III. Thou shalt not take the name of thy wife in vain.

IV. Remember thy wife to keep her respectably.

V. Honor thy wife's father and mother.

VI. Thou shalt not fret.

VII. Thou shalt not find fault with thy dinner.

VIII. Thou shalt not chew tobacco.

IX. Thou shalt not be behind thy neighbor.

X. Thou shalt not visit the rum tavern; thou shall not covet the tavern keeper's rum, nor his brandy, nor his gin, nor his whisky, nor his wine, nor any thing that's behind the bar of the rum-seller.

XI. Thou shalt not visit billiard saloons neither for worshipping on the dance, nor the heaps of money that lie on the tables.

And the twelfth commandment is; Thou shalt not stay out later than nine o'clock at night.

USFS SEEKS CRIMINAL PENALTIES FOR MINERS

This showed up in the Federal Register this month. It directly affects us as dredge operators. Please take the time to read this proposal and send in your comments, if they get enough negative feedback they might drop the whole scheme or Congress can stop them, after all this is supposed to be OUR government. SUPPLEMENTARY INFORMATION: *Public Notification and Request for Comments*

The Department is making every effort to ensure that all interested parties, including mineral operators, minerals-related organizations and associations, are informed of the availability of the proposed rule. To ensure the widest distribution, the proposed rule will be distributed by paper copy mailings, e-mail notices, posting on the Forest Service Minerals and Geology Management Staff internet web site, as well as published notices in local newspapers. Copies of the proposed rule also will be provided to the appropriate Congressional committee members.

Background and Need for Proposed Rule

The Forest Service uses two enforcement options, civil and criminal, to enforce its mining regulations at 36 CFR part 228, subpart A. Criminal enforcement (36 CFR part 261) is often used in situations that are factually uncomplicated and where immediate action is needed, or other resolutions have failed.

In 1984, a Federal district judge ruled that the prohibitions at 36 CFR 261.10 did not apply to mineral operations. As a result, the Forest Service amended Sec. 261.10(a) and 261.10(l) to directly tie the wording to locatable mineral operations by adding "or approved operating plan" to both of these paragraphs. Unfortunately, the wording was not added to Sec. 261.10(b) and 261.10(k), and that omission makes these paragraphs less clearly applicable to mineral operations.

Two recent court decisions have prompted the Forest Service to amend the prohibitions at 36 CFR 261.10. In California, the Forest Service cited a suction dredge operator under the criminal regulations at 36 CFR 261.10(k) for use or occupancy without a special use permit authorization.

The magistrate court judge dismissed the charge in *U.S. v. McClure*, 364 F. Supp. 2d 1183 (E.D.Cal., 2005), and cited in support of the ruling another recent California Eastern District Court decision, *U.S. v. Lex*, 300 F. Supp. 2d 951 (E.D.Cal., 2003). In summary, these decisions found that special-use authorizations and the application of 36 CFR 261.10(b) and 261.10(k) do not apply to mineral operations.

As a result of the *McClure* and *Lex* court decisions, it is advisable to again amend certain paragraphs in 36 CFR 261.10 to clearly tie them to locatable mineral operations and other mineral operations. The Regions dealing with suction dredge operators are particularly concerned about the effects of the two adverse ruling on their use of provisions in 261.

Clarification for Issuing a Criminal Citation for Unauthorized Occupancy and Use of National Forest System Lands and Facilities by Mineral Operators

The technical amendments to 36 CFR part 261 clarify that a criminal citation can be issued for unauthorized occupancy and use of National Forest System lands and facilities by mineral operators when such authorization is required. The technical amendments to 36 CFR part 261 also clarify what constitutes residential occupancy as well as show there is a clear distinction between a special-use authorization and an operating plan.

Exemption From Notice and Comment

Comments received on this proposed rule will be considered in adoption of a final rule, notice of which will be published in the Federal Register. The final rule will include a response to comments received and identify any revisions made to the rule as a result of the comments.

[[Page 26579]]

Regulatory Impact

This proposed rule has been reviewed under USDA procedures and Executive Order 12866 on Regulatory Planning and Review. It has been determined that this proposed rule is not significant. It will not have an annual effect of \$100 million or more on the economy, nor adversely affect productivity, competition, jobs, the environment, public health or safety, nor State or local governments. This proposed rule would not interfere with an action taken or planned by another agency, nor raise new legal or policy issues. Finally, this action will not alter the budgetary impact of entitlements, grants, user fees, loan programs, nor the rights and obligations of recipients of such programs. Moreover, this proposed rule has been considered in light of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), and it has been determined that this action will not have a significant economic impact on a substantial number of small entities as defined by that Act. Therefore, a regulatory flexibility analysis is not required.

Environmental Impacts

This proposed rule more clearly establishes when mineral operators can be issued a criminal citation for unauthorized occupancy and use of National Forest System lands and facilities when such authorization is required. Section 31.1(b) of Forest Service Handbook 1909.15 (57 FR 43168; September 18, 1992) excludes from documentation in an environmental assessment or environmental impact statement "rules, regulations, or policies to establish Service-wide administrative procedures, program processes, or instruction." This proposed rule falls within this category of actions and no extraordinary circumstances exist which would require preparation of an environmental assessment or an environmental impact statement.

Energy Effects

This proposed rule has been reviewed under the Executive Order 13211 of May 18, 2001, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use." It has been determined that this proposed rule does not constitute a significant energy action as defined in the Executive order.

Controlling Paperwork Burdens on the Public

This proposed rule does not contain any new recordkeeping or reporting requirements or other information collection requirements as defined in 5 CFR part 1320 that are not already required by law or not already approved for use. Accordingly, the review provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) and its implementing regulations at 5 CFR part 1320 do not apply.

Federalism

The agency has considered this proposed rule under the requirements of Executive Order 13132--Federalism, and Executive Order 12875--Government Partnerships. The agency has made a preliminary assessment that the proposed rule conforms with the federalism principles set out in these Executive orders; would not impose any compliance costs on the States; and would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Based on comments received on this proposed rule, the agency will consider if any additional consultations will be needed with the State and local governments prior to adopting a final rule.

Consultation and Coordination With Indian Tribal Governments

This proposed rule does not have tribal implications as defined by Executive Order 13175--Consultation and Coordination With Indian Tribal Governments; therefore, advance consultation with tribes is not required.

No Takings Implications

This proposed rule has been analyzed in accordance with the principles and criteria contained in Executive Order 12630--Government Actions and Interference with Civil Constitutionally Protected Property Rights. It has been determined that the proposed rule does not pose the risk of a taking of private property.

Civil Justice Reform

This proposed rule has been reviewed under Executive Order 12988-- Civil Justice Reform. If this proposed rule were adopted, (1) all State and local laws and regulations that are in conflict with this proposed rule or that impede its full implementation would be preempted; (2) no retroactive effect would be given to this proposed rule; and (3) it would not require administrative proceedings before parties may file suit in court to challenge its provisions.

Unfunded Mandates

Pursuant to Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538), which the President signed into law on March 22, 1995, the Forest Service has assessed the effects of this proposed rule on State, local, and tribal governments and the private sector. This proposed rule would not compel the expenditure of \$100 million or more by any State, local, or tribal government or anyone in the private sector. Therefore, a statement under section 202 of the Act would not be required.
